Timeline for Future Sprints

User Stories and Acceptance Criteria

US-04 : Chat function

As a User(Team-member/Manager/Client): I should be able to chat with all the members of team and the client.

__Acceptance Criteria:__

*All the users should have access to the chat box where they should be able to select the person and group they want to send the message.

*All the users should be able to create the group they want to chat within.

*The user should be provided with a text field where they can type the message that needs to be sent.

*When a user sends a particular message to other, it should reflect in the other person's chat or on the group where it is sent.

* The message should be stored so that the user can view the message whenever required.

Test Cases for Sprint 7

User Story/Task	Test Case Scenario	Expected Result	PASS/FAIL	Completed in Sprint
US-04. Chat function	Go to chat page	The page needs to be moved from dashboard to the the page where the chat function is happening.	Pass	Completed in Sprint 7
	Text field to type the message	The message should be typed in the text field area provided to send the message	Pass	
	Sending message to Group	Pass the message to the chat history so that others users in the group can see the message sent	Pass	
T-071 Dashboard	Updating Names in the Settings panel	All the users should be able to view the Settings page . Inside Setting page , user should be able to access the General/ Profile /Notification tabs. In the Profile tab, user should be notified if any changes done i.e User name Update.	Pass	
T-071 Dashboard	User Profile Picture Uploading	All the users should have access to personalize their respective account by uploading their picture on the tool. This picture needs to be retained after the session id uploaded	Fail (Picture can be uploaded but was not retained after session refresh)	Moved the test and code changes to the next sprint

Product Backlog
